

Rock Request Application

The City of Dunwoody supports your decision to reduce erosion, and would like to assist by providing rock. In order to protect our environment and ensure proper use of municipal assets, we require that the Public Works and Community Development Departments provide signed approval below. The placement of rock within streams is a regulated process and will require permitting in many circumstances. For more information in regard to permitting process, please contact Public Works at 678-382-6850 or visit http://dunwoodyga.gov/departments/community_development/Building-Permits/LandDevelopment.aspx.

Release and Indemnity for Rock Request

The undersigned property owner requests that the City of Dunwoody deliver to their property a quantity of stone for use in correcting expressed drainage problems at this property. The intent of this program is to help reduce erosion caused by surface drainage, and not for landscaping or building purposes. The undersigned property owner understands that state and federal laws regulate the placement of stone in intermittent or perennial streams. Furthermore, the undersigned property owner understands that they are responsible for complying with all state and federal laws associated with the placement of stone in intermittent or perennial streams. The undersigned property owner acknowledges that the City of Dunwoody has not interpreted the meaning of said applicable laws or regulations, nor has it decided which are applicable to the placement of stone at this property.

If materials are not installed per this agreement within sixty (60) days of delivery, the undersigned agrees to pay the City of Dunwoody \$300 per load for the cost of all materials supplied and their delivery.

The load of stone shall be approximately 15 to 18 tons. The pile will be cone-shaped with an approximate base diameter of about 15 feet and approximately 6 feet high. The stone will measure 6 to 18 inches in length and width the majority of time, but can contain smaller or larger stone. Property owner is entitled to a maximum of two loads of rock.

The City will dump the stone on the right-of-way at a location designated by the property owner. In addition, the property owner should drive a stake in the middle of the area where the load of rock is to be delivered.

In consideration for the City of Dunwoody providing stone to the property owner without charge, the undersigned property owner releases and agrees to indemnify the City of Dunwoody and its agents and employees from any and all claims of any kind arising from the services requested herein. This release and indemnity includes, without limitation, damage to driveways, curbs, sidewalks, plants, and landscape. Furthermore, the Property owner agrees to be responsible to remove any/all excess and over/undersized stone from the property. **Neither the City of Dunwoody nor its agents and employees will be responsible for the removal of excess stone.**

The above terms are agreed to and accepted this ____ day of _____, 20__.

Please Note: The average length of time for delivery of rock is two (2) months.
